

Attention:

- Specimen Label is for general information only.
- Always follow the label and instructions on the product.
- Not a fertilizer substitute

Minimum Guaranteed Analysis:

Active Ingredient:

9-Tricarboxalic Acid 1%

Inert Ingredients: Aqueous carrier 99%

Purpose:

Increases abiotic stress tolerance and nutrient efficiency.

Shelf life:

- 2 years from time of production.

Package sizes available:

- 2x2.5-gallon, net weight 41.7 lbs.
- 275-gallon shuttle, net weight 2,293.5 lbs.

Application rate:

- Foliar - 16 oz per acre with 10-20 gal of water
- In furrow – 16 oz per acre with minimum of 3 gallons of liquid carrier

For best results:

- Store in a dry and shaded location in temperatures between 40° and 77° F.
- Open container when ready to apply to seed.
- Mix with liquid starter fertilizers or herbicides or water
- Apply early in season before crop is under stress

Directions for use:

- Shake liquid in container to mix and achieve suspension.
- Pour liquid contents into applicator tank
- Calibrate applicator to apply at appropriate rate.
- Apply to crop immediately for best results.
- Call Dakota Bio representative for questions and compatibilities with other products.
