- Your state may require additional precautions for biologicals that are not included here.
- This information may differ from product label.
- Always follow the label and instructions on the product.
- Not a fertilizer substitute.
- This product contains live micro-organisms and may cause adverse effects to persons with a compromised immune system. Avoid contact with eyes, mouth, and broken skin. Do not inhale product. Wear eye and skin protection when handling. Wash hands after using.

Minimum Guaranteed Analysis

<i>Bacillus amyloliquefaciens</i>	3x10 ⁸ CFU/mL
<i>Bacillus pumilus</i>	4x10 ⁸ CFU/mL
<i>Bacillus subtilis</i>	3x10 ⁸ CFU/mL
Inert Ingredients: Aqueous carrier	99%

Purpose:

To solubilize phosphorus from soil.

Shelf life:

- 2 years from time of production.

Package sizes available:

- 2x2.5-gallon, net weight 41.75 lbs.
- 250-gallon shuttle, net weight 2,087.5 lbs.

Application rate:

- Apply at a rate of 1 pint (16 fl. oz.) per acre

For best results:

- Store in a dry and shaded location in temperatures between 40° and 77° F.
- Mix or agitate product before using.
- Open container when ready to apply to use.

Directions for use:

- If mixing with other products, apply to soil within 30 days of mixing.
- Mixing with carbon or sugar-based products shortens tank survivability.
- Mix or agitate product back into suspension if there is time between uses.
- Do not exceed 3x the labeled rate.
- Pour liquid fertilizer, water, then B4 LiF Organic into tank.
- Calibrate to apply at 1 pint(16 fl. oz) per acre.
- Call Dakota Bio representative for questions and compatibilities with other products.
